

Messagemaker Display's is one of the UK leading suppliers of LED traffic solution, providing an innovative solution through partnerships to the highways and traffic industries. Our diverse and energy efficient range of road safety signs include, high speed, local and urban and temporary traffic management.

High Speed

MSI

Our MSI is a motorway solution developed for both new projects and replacement work. It's simple and easy to swap-out with existing infrastructure.

Lane Control Sign

These signs allow for real-time updates based on traffic conditions. They are designed to be reliable, efficient and flexible and deliver all your traffic management needs. Available for tunnel and tidal flow usage.

MS4R

Our MS4R is reliable and displays text messages, pictograms, other legends or combining all of the above together for instant roadside messaging.

AMI

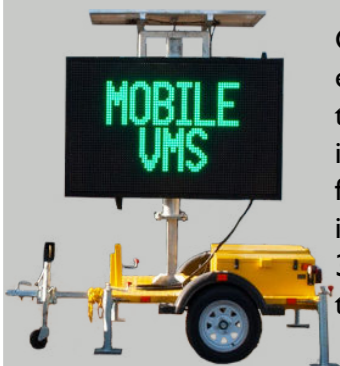

Our AMI is full compatible with existing infrastructure, indicating lane closures or speed limit change due to road works or accidents on the motorway

Temporary Traffic Management

Mobile VMS

Our Mobile VMS is easily mobile and simple to programme, making it the perfect solution for temporary road side information. Available in 3 sizes to suit all road types.

Mini Unit

Our Mini Unit is the most compact temporary sign in the range. Available with a VAS or VMS

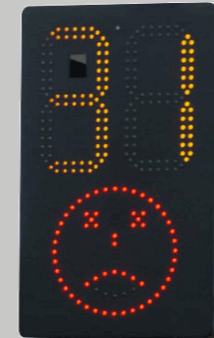

Tower Unit

The tower unit is the ideal solution for communicating temporary information where space is limited but there is need for a big screen.

Local and Urban

Vehicle Activated Speed Signs

Our Vehicle Activated Speed Signs are the ideal solution for traffic calming and reducing speed. Our range includes:

- Smiley Activated Message Signs (SAM)
- Speed Indicator Devices (SID)
- Speed Limit Reminder (SLR)

Urban VMS

Our Urban VMS is an intelligent and reliable solution which can communicate real-time messaging, traffic updates, warnings and directions to all road users quickly and easily. Plus 5 standard sizes for primary routes, city centre and parking applications.

Vehicle Activated Warning Signs

Our Vehicle Activated Warning Signs is the ideal solution for collision prevention and traffic calming. Plus 3 models with different LED configurations in the range.

LED School Warning Signs

Our LED School Warning Signs are a versatile solution for traffic calming and improving safety and increasing road user awareness around schools. Flashing amber beacon and full reflective vinyl for energy efficient awareness

Urban Speed Limit Repeater Sign

Our Urban Speed Limit Repeater Signs are a small compact solution ideal for local roads. Larger Signs are available to pair with.
